Federal MP's welcomes moves from Tasmanian Government on Australian Technical College

The Member for Braddon, Sid Sidebottom, the Member for Bass, Jodie Campbell and the Member for Lyons, Dick Adams, today welcomed an indication from the Tasmanian Government that they will be making an announcement about the ACTNT in coming days that will provide for an alternative entity on a sustainable basis.

“We see the announcement by the Tasmanian Premier as a positive step in resolving this difficult situation and look forward to a detailed proposal being announced in the coming days,” Ms Campbell said.

Mr Sidebottom agreed, “We have been working hard behind the scenes to ensure that the concerns of parents, staff and industry are being properly taken into account in any future arrangements.”
